

# GOBINATH THANGAMUTHU

## Full-Stack Java Developer

Full-Stack Developer with a Master's in Computer Applications, skilled in React, Java (Spring Boot), and PostgreSQL. I'm passionate about writing clean code and using cloud technologies, recently deploying a full-stack chat application to Azure during my freelance work.

## WORK EXPERIENCE

### Amazon Mturk Freelance

03/2022 – 10/2024

#### Achievements/Tasks

- Detail-oriented professional handling data tasks like entry, verification, tagging, and transcription with a focus on high accuracy.
- With a keen eye for detail, I handle various data tasks like entry verification, image tagging, and audio transcription.
- I focus on ensuring high accuracy, whether I'm collecting data for research or moderating content.

### Projects Chatee

07/2025 - 09/2025

#### Achievements/Tasks

- Spearheaded the end-to-end development and deployment of "Chatee," a dynamic full-stack chat application.
- Engineered a robust **REST API** to ensure seamless, real-time communication and data exchange.
- Managed the complete project lifecycle with a complex **multi-cloud deployment** on both **Azure** and **AWS**.
- The live application is accessible at: <https://gray-tree-04632fc0f.2.azurestaticapps.net/>.

## Certifications

### Amazon

04/2025 - 08/2025

#### Achievements/Tasks

- **Verified Achievement:** Gobinath T earned a verified certificate from Coursera for successfully completing the **Amazon Junior Software Developer with GenAI Specialization**.
- **Core Skills Acquired:** The program covered fundamental areas such as **Java Programming, Data Structures, Algorithms, and SQL**.
- **Advanced Topics:** It also included advanced training in **Full Stack Web Development** and the application of **Generative AI** in software development.
