## WORK EXPERIENCE

### Web Developer

Freelance

03/2022 – 10/2024

#### Achievements/Tasks

- Designed and developed responsive websites using **Wix.com**, customizing UI components to meet client and business requirements.
- Integrated **custom HTML, CSS, and JavaScript** to extend Wix functionality and improve user experience across devices.
- Deployed and managed websites on **Azure and AWS platforms**, ensuring reliable hosting, performance optimization, and basic SEO configuration.

### Projects

Chatee

07/2025 - 09/2025

#### Achievements/Tasks

- Spearheaded the end-to-end development and deployment of "**Chatee**," a dynamic full-stack chat application.
- Engineered a robust **REST API** to ensure seamless, real-time communication and data exchange.
- Managed the complete project lifecycle with a complex **multi-cloud deployment** on both **Azure** and **AWS**.

### Certifications

Amazon

04/2025 - 08/2025

#### Achievements/Tasks

- Verified Achievement:** Gobinath T earned a verified certificate from Coursera for successfully completing the **Amazon Junior Software Developer with GenAI Specialization**.
- Core Skills Acquired:** The program covered fundamental areas such as **Java Programming, Data Structures, Algorithms, and SQL**.
- Advanced Topics:** It also included advanced training in **Full Stack Web Development** and the application of **Generative AI** in software development.
